WIND-UP SALE—GEO. M. SNOOK & CO.

FAST AND GREATEST Wind-Up Sale OF OUR BUSINESS YEAR ENDS FEBRUARY 1, 1894

A week of reckless and profitless prices begins in our Cloak Department to-day. Our every energy will be directed towards reducing the choice lines of LIGHT AND MEDIUM WEIGHT JACKETS, etc., the season for which is now almost upon us. Many of the Black Jackets noted below are made out of that well known and staple material, Clay Worsted, of which the satin lined ones are considered heavy enough for winter wear.

Lot 1. Ladies' All-Wool Black and Navy Blazers at 95c each, worth \$2.50.
Lot 2. Ladies' Black and Colored Jackets and Blazers at \$1.95, worth \$4.50.
Lot 3. Ladies' Black and Colored Jackets and Blazers, \$2.85, worth \$6 to \$7.
Lot 4. Ladies' Black and Colored Jackets at \$3.65, worth \$7.50 to \$8.50.
Lot 5. Ladies' Black Clay Worsted and Colored Cloth Jackets at \$1.35, worth \$9.00 to \$10.00.
Lot 6. Ladies' Black Clay Worsted and Colored Cloth Jackets at \$5.90, worth \$11.00 to \$14.00.
Lot 7. Ladies' Black Clay Worsted and Colored Cloth Jackets at \$7.45, worth \$16.00 to \$18.00.

Also a lot of extra fine Satin Lined Black Clay Worsted Jackets at proportionate reductions. Children's Long and Short Jackets, ages 2 to 5 years, at equally low prices. Our winter stock of Children's Long Coats, ages 6 to 12 years, will be closed as follows: Lot 1.—\$2.95. Lot 2.—\$3.95. Lot 3.—\$4.95. Our entire stock of about two dozen Ladies' Winter Weight Jackets shares in the general demoralization of values. Ladies' Cloth Suits also less than half price. \$12.00 Suits at \$4.90; \$13.75 Suits at \$5.95; \$15.00 Suits at \$7.00; \$19.00 Suits at \$8.90, etc.

These unusual prices will certainly justify purchases for future as well as present use.

VINETAILORING AT POPULAR PRICES

A complete line of Fall and Winter Woollens, embracing Suits, Trousers, and Overcoats, Fashionably cut, elegantly made. Fit guaranteed. C. HESS & SONS, Fashionable Tailors and Gent's Furnishers, 1321 and 1323 Market Street.

An Old Charge of Assault. Robert Spears has been in the workhouse for thirty days on a charge of disorderly conduct. His time will be up to-day, and he will be arraigned in police court this morning on a charge of assaulting his wife last August.

A Fine Portrait. In the window of E. L. Nicoll's art store is exhibited a portrait in oil of the late Dr. John Frisell. It is from the easel of Mr. Morgan Rheas, of New York, who is now home on a visit to his father. It is a fine piece of work as to artistic finish and is a very life like portrait.

Died of His Injuries.

George Turner, the young man who was burned at the Wheeling steel works Monday afternoon, died yesterday morning shortly after 9 o'clock, of the injuries then received. The funeral services will be held at the M. E. church Friday afternoon at 2 o'clock. Their hosts of friends extend to the bereaved family their heartfelt sympathy in their sad bereavement.

Probate Business Yesterday.

Robert White was yesterday appointed administrator of the estate of Marshall V. White, deceased, and gave bond in the sum of \$200, with John W. Mitchell as surety.

James A. McCombes qualified as executor of the will of Hiram McCombs, deceased, and gave bond in \$1,500, without surety, none being required by the will.

Theresa Bohl qualified as guardian of the six minor orphans of Frank Bohl, deceased, and gave bond in \$100, with P. Wely as surety.

Stolen Watch Recovered.

John Barnhardt, of Mannington, has been a patient of the Keeley Institute, on the South Side, for some time. Night before last he escaped and went on a spree, and his gold watch and chain were stolen from him. Yesterday Lieutenant Lukins found the watch in Beekman's pawn shop, where he had pledged it for \$14. Iky Giffin was arrested for the theft, and the pawn ticket and chain were found on him by Lieutenant Gaus. He will be arraigned before Squire Gillespy this morning. Barnhardt was taken back to the Keeley Institute.

The Finest Display Yet.

Mr. Geo. M. Jaques, the editor of the *Crooklyn and Glass Journal*, of New York, who has been in the city a day or two, is astonished at the progress made by the glass manufacturers of this vicinity. He says the style, finish and design of the new goods shown this season are far in advance of any of those in recent years, and from this he understands why the dealers who have been visiting the Exchange during this month have placed more liberal orders here than in other localities this season. He says Wheeling has never had as good a display in the respects he mentions as there is this season.

The Work of Relief.

Only two cash donations were received by Treasurer Dobbins, of the citizens' relief committee, yesterday, one of \$25 and the other of \$50. Both were from persons who did not want their names known. The only donations of provisions received at the store were one barrel of onions and one barrel of potatoes from Capt. C. J. Rawling, and one barrel of parsnips and one barrel of potatoes from P. Bachman & Sons.

Over 112 orders were filled at the store yesterday, and there was a rush of applicants all day. More new faces were among these than on any day since the opening one. This kind of weather drives the unemployed to seek relief.

Mrs. G. W. Atkinson Dead.

The host of friends of Hon. G. W. Atkinson and his family were shocked and deeply pained yesterday to hear that his wife had died at an early hour yesterday morning, of heart failure. Mrs. Atkinson had been an invalid for a long time, but was not thought to be in a dangerous condition until just before she died. A doctor was hastily summoned, but before the medicine he prescribed could be procured she had breathed her last. Mrs. Atkinson's maiden name was Ellen Engna, and she resided at Charleston when she married Mr. Atkinson, her family being prominent in the Kanawha Valley. She was highly esteemed by all who knew her, and beloved by those who knew her best. She was a woman of fine mind and good heart, and the sudden blow to her devoted husband and children was peculiarly severe. The tenderest sympathy is felt for them by the whole community. The funeral services will be held at the family residence, 105 Twelfth street, at 10:45 a. m. to-day, the remains being taken to Charleston for interment to-morrow afternoon.

Give your pet dogs and cats Simmons Liver Regulator, when sick—it will cure them.

"Dante the epidemic of la grippe Chamberlain's Cough Remedy took the lead here and was much better liked than other cough medicine." H. M. BAXTER, druggist, Chatsworth, Ill. The grip is much the same as a very severe cold and requires precisely the same treatment. This remedy is prompt and effective and will prevent any tendency of the disease toward pneumonia.

MID-AIR CABLE LINE.

Novel Scheme by Which the River Will be Crossed.

TWO IMMENSE STEEL CABLES

To be Stretched Over the Ohio Just Below the Steel Bridge—A Suspended Car to be Run, With a Capacity of Twenty Passengers—The Island Terminus Will be at a Steel Tower—Steps Toward Organization.

The very words, "A Mid-Air Cable Line" sound Utopian and impractical to the average person, but if the carefully laid plans of a number of gentlemen of this city do not miscarry, there will soon be a new and novel mode of transportation for passengers from and to the Island, which the words quoted accurately describe.

A movement is on foot to form a company to build and operate a mid-air cable car line. Several days ago a Wheeling gentleman said that such a method of transportation would be the cheapest and most satisfactory to the Island people who are kicking at the rates recently made by the two bridge companies. He submitted his project to a well known engineer, who said that it at once possessed the qualities of cheapness and practicability. A rough estimate was made that the entire apparatus would cost \$10,000. The gentleman interested claim that with an investment one-twenty-fifth as large as that in the steel bridge they can surely secure patronage to make the enterprise a big success financially.

The gentleman who first suggested the scheme thought one cable would be enough, but experts say that two cables would make the line as safe as any bridge that crosses the Ohio, and at not much additional cost. Already the projectors have asked for prices on the steel cables, and in a few days a charter of incorporation for the "Mid Air Cable Company" will be applied for to the West Virginia secretary of state. Steps will also be taken to secure the necessary consent of the United States war department to cross the Ohio. It is not thought there will be an objection on this score, as it is intended that the cable car will move at an elevation as high as the steel bridge.

Of course the spot where the cable line will be constructed has not been definitely decided upon, but the best location so far looked at is from the foot of Ohio street on the Island, just below the steel bridge, to the island which reaches to the river front below Tenth street. The elevation on this side of the river is very favorable and the cables would not have to be swung very high above the ground. On the Island side, however, the ground being much lower, a steel tower about the height of the pier of the steel bridge will be necessary.

The power to run the car which would be suspended from the cables would be supplied from the Island side, and the speed of the car would be great enough to make a trip in about one minute, faster even than the street cars do it.

The car will be large enough to accommodate at least twenty persons comfortably. In point of safety the projectors claim that their mid-air line will compare favorably with any bridge, there being absolutely no danger.

The car would land at a level with the alley on this side, and there will be a passenger platform in the tower on the Island side, near the top, which will be reached from the street below either by a winding stairway or an elevator. The cables would be securely anchored in the ground on both sides of the river.

Though the primary object of the new company is not to enter into a warfare with the bridge companies, yet a favorable rate will be made to the Islanders, and the transient rate will be placed probably at one cent per trip. It is said that the construction of a mid air cable line of the magnitude of the one in contemplation would be an unrivaled advertisement for Wheeling and that thousands of people would be attracted to the city to see it in practical use.

All the necessary capital is said to be assured if the cost of construction does not greatly exceed the estimate made by the engineer, \$10,000. One gentleman who was approached said that it is possible the residents on the upper part of the Island will agitate the construction of a similar line from that part of the Garden Spot to the city proper.

Benwood School Notes.

A number of teachers of Benwood and vicinity will attend an educational meeting at Moundsville next Saturday. An instructive line of work has been mapped out for discussion and consideration. In a few weeks another meeting will be held at Benwood.

At the regular meeting of the board of trustees and teachers of the schools it was decided that the teachers should be given a holiday of one day during the present month for the purpose of visiting neighboring schools.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

Artistic.

The names of the artists engaged for the production of "The Flying Vulture" guarantee an artistic performance.
